Subject: World Teachers' Day – Thank You to Our Nursery & Primary Teachers

Dear Teachers,

On the occasion of **World Teachers' Day**, the Parents' Association (APEEE) would like to express its sincere gratitude to all the teachers of the EEB2 Nursery & Primary Cycle for the dedication, energy and care you bring to our children every day.

World Teacher's Day honors educators and recognises **the vital role you play** in shaping education and society. We know that behind every lesson taught and every school day, there are countless hours of preparation, patience, creativity and attention that make the difference in the daily lives of our children.

At EEB2, this school year has marked **an important new chapter** for our Nursery & Primary community. The transformation of our school, with the move of the Woluwe Nursery and Primary cycles to Evere required many of you to adapt to a new environment and new routines. For those already teaching in Evere, welcoming a much larger school community brought significant changes. In different ways, **this transition has asked a great deal of everyone in the school community, and not least, of you.**

In this context, your commitment to your pupils - **teaching, guiding, encouraging and supporting them every day**, while helping them find their place in their environment has been more crucial than ever.

On behalf of the APEEE Board and the parents we represent, **thank you for your hard work and for the care and commitment you show to our children every day.**

We wish you all a very happy **World Teachers' Day!**

With our warmest thanks and appreciation,

Virginie Battu-Henriksson

President of the APEEE Board

APEEE Brussels II – Evere & Woluwe
