Subject: World Teachers' Day – Thank You to Our Secondary Teachers

Dear Teachers,

On the occasion of **World Teachers' Day**, the APEEE would like to express its sincere gratitude to all the teachers of the EEB2 Secondary cycle for the dedication, energy and care you bring to our children every day.

World Teacher's Day honors educators and recognises **the vital role you play** in shaping education and society. We know that behind every lesson taught and every school day, there are countless hours of preparation, patience, creativity and attention that make the difference in the daily lives of your students, accompanying them not only in their academic development but also as they grow into young adults.

At EEB2, this school year has marked an important new chapter for the entire community. With the Woluwe site becoming exclusively dedicated to the Secondary cycle, the reorganisation of the school has brought **significant changes to the school environment, routines and daily life**. In different ways, this transition has asked **a great deal of everyone in the school community, and not least, of you**.

In this context, your commitment to your students - **teaching, guiding, encouraging and supporting them every day**, while helping them find their place in the new environment has been more crucial than ever.

On behalf of the APEEE Board and the parents we represent, **thank you for your hard work, and for the care and commitment you show to your students every day**.

We wish you all a very happy **World Teachers' Day**!

With our warmest thanks and appreciation,

Virginie Battu-Henriksson

President of the APEEE Board

APEEE Brussels II – Evere & Woluwe
